

Green Valley Country Club Vista II President's Memo
Delores J. Kropf

August 31, 2020

Due to COVID-19 we have not been able to meet for the monthly meetings. Therefore, I am writing to keep you informed about what is happening in our neighborhood.

IMPORTANT: I am having difficulty changing phone companies and my phone is not in service. Meanwhile, if you want to reach me call my cell phone, 520-404-7583.

Unfortunately, our amazing and ideal Secretary is moving. We NEED another Board member who will serve as Secretary. If you interested in serving on the Green Valley Country Club Vista II Board, please send a letter that explains your interest and your qualifications. Keep in mind you do not need to send anything formal. Send your letter to me at 120 W. Calle Frambuesa, Green Valley, AZ 85614

We need volunteers for two committees: 1) Nomination Committee for Board members to be elected at the January 2021 General Meeting. Hopefully, we will be able to meet for a General Meeting. If you are interested in being on the Nomination Committee, please call Delores and, 2) to develop a list/book of resources. If you are interested in this Committee, please contact Martha Crowell (214)641-1688 or Delores.

Thank you to the property owners that promptly cleaned their property when the issues were pointed out. Remember every lot owner is responsible for the care of their land even if it is rented or vacant. Being friendly and neighborly is a goal for our POA. Please be a part of this goal by helping and getting to know your neighbors.(6 feet distancing and mask)

Thank You,
Delores J. Kropf
President

Reminders:

Everyone must clean up after their dog(s). This is not a suggestion; it is the law. If there is a consistent violator, you may report the problem to Pima Animal Care Center, (520) 724-5900.

The speed limit is 25 miles per hour. There are cars moving at an excessive speed. Please slow down and remind visitors to do the same.

Cigarette butts are trash! Do not throw them down on someone else's property.

COVID-19 is not gone despite places beginning to be open. Protect yourself and others, by following CDC guidelines, especially wearing a mask, social distancing and hand washing often.
